Dear Jerome:

I have your letter of February 9 and while I should indeed be glad to meet with you at the School some evening, I must say that my son Paul is no longer with the Arma Corporation in Brooklyn. He is now living in Utica, New York, and is with the General Cable Co. at Rome, New York, where he is serving in quite another capacity.

I am indeed glad to know that you are working and wish I might be of some help to you in finding a more congenial job.

Sincerely,

O. K. Dorn

Dear Mr. Dorn:

Thank you for your telephone call regarding an appointment with you. I deeply regret not being able to keep that but, unfortunately, my business hours conflicted with the time you suggested. However, the problem that I wanted to discuss with you still exists.

At the present time I am employed in a branch of engineering in which I have no particular interest, and in which therefore, I feel I cannot succeed. Since I have no personal contact with people acquainted with the general field of engineering, I find myself at a loss. Realizing that your son is in the same field as I, I assume that perhaps you had to solve some of the same initial problems for him that at the present time are causing me such difficulty.

Recalling some of the chats we had together some time ago regarding the issues involved in my particular field, and recalling that you so kindly asked me to come and see you after my graduation, I felt that I might take advantage of your considerate offer.

I am now working six days a week, which prevents my making an appointment in the afternoon. Perhaps, however, we could have dinner together at the school-or anywhere else you suggest. I would appreciate if you would write me arranging an appointment at your convenience.

Again may I thank you for your interest and encouragement.

Sincerely yours,

Jerome Falk
