Dear Mr. Bruns:

Pardon me Mr. Bruns but I was so completely wrapped up in Mr. Schram's plan for raising funds that I overlooked handing you a copy of "Progress and Poverty". I am sending you a copy today under separate cover.

I trust that you will find it interesting and that in this philosophy of freedom you will find the answer to the great enigma that seems to be baffling our countrymen as well as others the world over.

Yours very sincerely,
