

155 Hughes Avenue,
Buffalo, N.Y.
September, 25th., 1917

Mr. Sylvester L. Malone, President,
Dr. McGlynn Monument Association,
New York City, N. Y.

Dear Mr. Malone:-

Letters and other pamphlets received.

I have been very busy and it still continues owing to the fact that the bank I am working for have just moved into new quarters, and you can imagine just what that means to a head of a department.

My speakers have disappointed me so a proposed public celebration has to be cancelled. Our meeting will take the character of a social function at the above address.

The occasion is too propitious a one to be ignored, and I feel that a contemplation of the character of Dr. McGlynn and the work he accomplished will stimulate us all to greater endeavor in the cause he held so dear and for which he did so much.

Our Society here sends kindest greeting to your celebration in New York, and with the fine speakers who have gathered there to do honor to this truly great man your meeting ought to be one long remembered by all who have the good fortune to be present.

Yours very cordially,
