1st August 1986

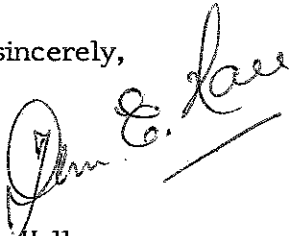

Dear Robert,

You will have heard already of the landslide (and it really was a landslide!) vote in favour of the retention of site-value rating at Gawler in South Australia.

We have followed that up with letters to every State politician and to every Mayor or Chairman of City, Town and District Council within South Australia. A copy of that letter and the enclosures is enclosed for your information.

The initial response has been encouraging and includes one request to show the video "Tale of Five Cities" one evening at Parliament House.

Yours sincerely,

John E. Hall,
Secretary.

Mr. Robert Clancy,
Council of Georgist Organisations,
