Mr. O. K. Dorn,
949 Palmer Road,
Bronxville, New York.

Dear Otto:

I haven't heard from you for sometime, and I only hope that you have not been ill. I see by the Henry George News, however, that you presided at one of the sessions, and I can well guess that a good job of presiding was done.

I enclose tentative copy for the October letter. I would like to have your frank criticism and particularly as to these points: does a discussion of the notion that wages are drawn from capital belong in this series; if so, should it come in at this time; and, finally, is the enclosed copy adequate as to content, arrangement, etc.

As you will recall, I have sort of apologized a time or two for introducing "elemental stuff", but we have had a number of letters saying that no apologies were necessary, and that the material would be helpful and enlightening to a lot of businessmen.

Best regards.

Sincerely,

C.O. STEELE
