October 1989

Dear H.G.F.A. Members:

I write this on the flight to Titusville, PA., where I have been asked by the City Council there to make an LVT 2-Rate presentation. I have high hopes (but I count no chickens before they hatch). This trip cost us hundreds of dollars, incidentally. Titusville paid us only a small part of that. I tried to spread out the cost by seeing five other cities in North West Pennsylvania.

We also just recently got a call from the City Manager of Coatesville, PA. to make a presentation there. Again, high hopes (but again, no advanced chicken-counting). Many HGFA trustees have been called to Coatesville; Hanno Beck is there right now.

So - things are looking up for us. The cities are calling us for help more often than in the past. We got two real-world victories last year - Clairton and Oil City (in Clairton, the previously antagonistic Pennsylvania Economy League helped us out tremendously).

We collected \$50,000.00 in contributions this past year (soon the new contributions-year will start again), so many of you out there are making possible our expanded activities. If your ability to do Georgist work is limited, we will be glad to do that work for you if you will let us.

The stock market has also been very kind to us lately, but the more money we get, the more useful activities we dream up. Sorry, but the opportunities out there are boundless for us.

This is not a letter asking for contributions. This letter is informational only.

Sincerely,

Steven Cord
